FEATURES

European and American design style, high quality aluminum die casting, painting process, round shape design, never fade, cracking prevention.

Adopt aerodynamic design, take heat away quickly, the heat sink and the LEDs keep low temperature, longer life and higher efficiency.

A variety of installation ways, suitable for round pole, square pole, wall, ground and so on. All the screws are SUS316 stainless steel screws, stronger ability to resist corrosion.

SMD3030 led chips, high CRI, low luminance decrease, high light efficiency 160 lm/w, brighter luminance and longer lifespan.

SOSEN high factor 12KV surge protector series driver, install on die casting power supply cover, lower temperature, longer life.

Through various experimental tests: anti-wind grade test, conduction radiation, 1.5 G aseismic test, uv aging test, drop, high level test, etc.

APPLICATION

LED Shoebox/Area Light series can be widely used in Parking lot, Urban roads, Industrial areas, Residential areas, Sidewalks, Schools, Gardens and etc.
