GENERAL DESCRIPTION

AL-UFH5, UFO LED high-bay light is a device which consist of die-cast aluminum alloy heat-sink, PC optical lens, LED light source model and driver. It can be a replacement of HID and other traditional light fixture, provided with higher efficacy, a longer lifetime of at least 50,000H or even more up to 100,000H. But much lower breakdown opportunity, higher reliability and better cost than before. It provides different light distribution angle by optical lens without reflector.
