

In accordance with U.S. Nuclear Regulatory Commission regulations APEX LIGHTING is **required** to collect certain information for reporting purposes. We are required to collect this information in its entirety, for the installation location and the ship to location if different from the installation address. If **any** part of the information is missing the order **CANNOT** be entered into our system and will delay placement, and ultimately shipping, of your order. Make sure you or your customer is aware that these signs are reported to the NRC, and the information given needs to be accurate:

We need the full legal name of all individuals and companies. We cannot use initials or abbreviations in our regulatory reports.

Ship to Information (if different from the end user):

Company: (full name no abbreviations) _____
Street Address: _____
City _____ State _____ Zip: _____
Contact Name: _____
Phone Number: _____

End User Information (where the signs are being installed):

This information must reflect the current or ultimate occupant of the facility in question. Information for a construction or electrical contractor that will leave upon completion of work cannot be used.

Company that does or will occupy the facility: (full name no abbreviations) _____
Street Address: _____
City _____ State _____ Zip: _____
Contact Name: _____
(Full name of person that works for the company occupying the facility. Can't be the contractor)
Phone Number: _____
Fax or Email: _____

Thank you for your cooperation.

Best regards,

Dale McCain
